**\* Brief description :**

\*The OPTIC-FOV (Shenzhen Hongxuan Optoelectronic Technology Co. , Ltd) lens offers low-profile lenses specifically designed for the Luxeon® LEDs, Edison® LEDs , Bridgelux® LEDs or Seoul® LEDs, Cree® LEDs.

\*A software-optimized aspheric profile enables the generation of several different beam output patterns:narrow,medium,elliptical and wides beams.

The high collection efficiency reaches 85% of the total flux emitted by the LEDs.

\*Lens holders are available in white or black,and provide the proper alignment the between the LEDs and the lenses,set correct distance between the lens and LED.

\*The lens holder can be glued to the PCB to provide a secure assembly.
