

## Ultrasonic Welding Horn/sonotrode

### DESCRIPTION

Ultrasonic Welding Horn / Ultrasonic Sonotrode / Ultrasonic Welding Mold is widely used in ultrasonic welding machine. It's the key for welding various plastic products, metal products or fabric products. Meanwhile, Ultrasonic Welding Machine is an ultrasonic welder designed for welding various plastics (ABS, PVC, PP, PE, PC, PS, HDPE, LDPE, PET, PMMA, Acetal, etc.) and fabrics (Polyester, nonwoven, Nylon, etc.). We can manufacture steel and titanium welding heads and tips at any frequency, and can be matched with other companies' products.

*Ultrasonic Welding Horn / Ultrasonic Sonotrode / Ultrasonic Welding Mold*

We can provide customized mold for requirements.
